**BANRO CORPORATION**

Banro is developing four, wholly-owned properties, each with mining licenses, along the 210 km Twangiza-Namoya gold belt in the D R Congo. The Company has identified 6.72 million ounces of Measured and Indicated Resources, plus Inferred Resources of 4.46 million ounces.

In August 2009, Banro acquired a gold plant capable of processing 100,000 oz Au per year, which will be used in construction of a phase one gold mine at its Twangiza flagship project, to begin operation in late 2011. The results of a full feasibility study of Twangiza were updated in June 2009.

A Pre-Feasibility study is due for completion at the Namoya project in 2010 and a scoping study is planned for Lugushwa in 2010.

In addition to its current properties, which cover 2,600 square kilometers, Banro in 2007 was awarded 14 exploration permits covering 3,130 square kilometers.

**ENGINEERS WITHOUT BORDERS**

Engineers Without Borders creates opportunities for rural Africans to access clean water, generate an income from humble farms, and have improved access to services and infrastructure they need to improve their lives. We are dedicated to finding widespread, sustainable solutions to extreme poverty in Africa, helping communities find solutions for a better future. EWB harnesses the problem-solving approach, technical skills, and creative pragmatism of the Canadian engineering sector to address the root causes of poverty in rural Africa. Our overseas volunteers partner with local entrepreneurs, organisations, and government ministries in the areas of water and sanitation, agricultural productivity and market access, and governance in rural infrastructure.
